

NEC A SERIES DIGITAL LED POSTER

INSTANT MESSAGING, WHEREVER ITS NEEDED

Designed for quick and easy deployment to wherever is needed, with messaging that cannot be ignored.

Replacing the traditional static roll-up banner, the A Series digital poster delivers dynamic content, which can be easily refreshed to deliver up to date graphics. Designed for use in public spaces with a robust stand, metal back plate and protective Perspex front panel, the versatile digital poster provides wayfinding assistance, information delivery, emergency messaging or POS promotion.

An integrated media player enables content playback via a free-of-charge software application that also supports mobile devices. The A Series also features HDMI inputs to connect to external media players and legacy equipment.

POP-UP SIGNAGE, ENGINEERED FOR VERSATILITY

The A Series poster delivers full impact LED brilliance in a versatile, mobile format. Equally suitable for free-standing, wall mounting or integration into housings, the ultra-slim profile design is widely adaptable. In a choice of pixel pitches, your message is received from any viewing distance in vivid, high contrast.

Popping up in reception areas, event halls, airport check-in and baggage collection, shopping malls, restaurants and museums; the NEC A Series is the essential tool for multi-purpose message delivery.

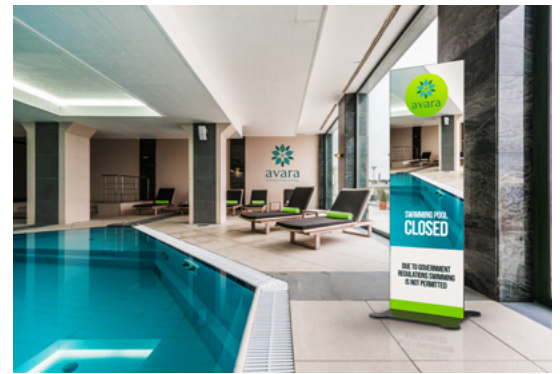

LONG-LIFE RELIABILITY AND PERFORMANCE

The A Series poster is engineered with professional-grade components and high quality Multi-Color LEDs that deliver industry-leading reliability and performance. The robust metal back plate supports excellent heat dissipation to maintain long lasting performance.

With government guidelines changing rapidly in the fight to contain Coronavirus, content can be changed quickly to remind staff and visitors to comply with the latest directives.
